

Hussein Hadid

Curriculum Vitae

Profile

I have built a track record in delivering large-scale programmes and projects with PwC for a roster of world-class clients. By keeping a sharp focus on practical innovation, I run successful programmes that break new ground – often against a challenging backdrop.

Work

2013–present Management Consultant at PwC

Commended as Young Consultant of the Year 2015 by the Management Consultancies Association, I have developed deep experience of helping clients through the entire project lifecycle, from scoping to delivery. Notable work I have delivered as programme or project manager includes:

Client: Tier 1 Investment Bank – Firm Management, Legal and Compliance

- Currently managing agile development of technological enhancements for senior Firm Management, with responsibility for programme-level regulatory affairs across multiple delivery teams.
- Delivered a complex project of advanced modelling and documentation outputs to meet regulatory expectations, while ensuring alignment to global strategic priorities through clear benefits realisation management.
- Supported the bank to instil a best-in-class market conduct compliance culture, with work performed across initial planning and scheduling, cost control and risk management, quality management and governance, as well as ongoing reporting and communications.

Client: Healthcare Commissioners – Strategic Planning

- Led a detailed implementation plan through identifying constituent projects and developing their business cases, working single-handedly with a large partnership to deliver a robust programme, manage stakeholders across dozens of organisations, as well as generate strategic and financial insights.
- Managed the governance model and senior board member engagement components of an empirical analysis to allow a healthcare client to respond to a complex regulatory request.

Client: UK Government – Service Design and Implementation

- Controlled programme execution of multiple workstreams to roll out new legislation by financial regulators, overseeing effective co-ordination across a network of delivery partners.
- Acted as a central PMO link across programme management and operations of a £300 million fund, working on programme-wide communications to an audience spanning over 20 countries and 5 languages.

Education

2010–2013 Natural Sciences BA Hons. (Cantab.) at University of Cambridge

- Major Subject: Genetics | Minor Subject: Entrepreneurship | Dissertation topic: The role of product-service systems as pharmaceutical business models (written with the Cambridge Judge Business School)
- Degree Classification: Class II, Division 1

Certifications

2015	Registered PRINCE2 Practitioner	AXELOS
